[Github](#) | [Linkedin](#) | portfolio: seh-nya.com

Summary

Adaptable and results-oriented professional transitioning into **software engineering** with a strong foundation in **problem-solving, data management, and critical thinking** gained from 5+ years in healthcare. Self-taught developer with a portfolio of **full-stack projects** demonstrating rapid learning and application of modern technologies. Eager to contribute technical expertise and collaborative energy to a development team.

Technical Skills

Frontend: JavaScript (ES6+), React, Next.js, Tailwind CSS

Backend: Python, Flask, Prisma, Bun

Database: SQL, PostgreSQL

Tools: Git, VS Code, REST APIs

Projects

Portfolio - seh-nya.com

- Personal portfolio showcasing web development projects and technical skills.

[Stack-It.dev](#)

- Built a **documentation resource platform** for up-to-date, stack-compatible code across frameworks (React, Prisma, Bun, SQL).
- Designed full-stack architecture, enabling developers to quickly integrate current tools and libraries.
- Highlights ability to track industry trends and build scalable developer tools.

[Roma.seh-nya.com](#)

- Developed a **restaurant demo site** using React, Flask, and PostgreSQL.
- Integrated **Google Maps API** for directions and location-based features.
- Implemented **REST APIs** for menu management and reservations.
- Styled with **Tailwind CSS** and deployed with Bun for fast, responsive performance.

Professional Experience

Telehealth Medical Assistant

Current Health (Acquired by Best Buy) - Remote, GA

01/2024 - Present

- Learned and adapted to multiple **EMR integrations, workflows, and communication platforms**.
- Troubleshoot **technical and clinical issues**, applying methodical problem-solving.

- Balanced simultaneous clinical tasks and technical phone support, improving **time management**.
- Monitored and logged **vital sign data** for 100+ patients, escalating anomalies to providers.

Certified Medical Assistant

*Suwanee Primary Care / Gwinnett Internal Medicine / North Atlanta
Endocrinology - GA
09/2020 - 12/2023*
